TECHNICAL SKILLS

- **Programming Languages:** Java, Golang, Typescript, Javascript, Python
- **Frameworks:** Spring Boot, Express.js, Gin (Golang)
- **Web Development:** NodeJS, ReactJS, VueJS, HTML, CSS
- **Cloud Technologies:** AWS (EKS, Lambda, S3), GCP, Serverless, Terraform, Kubernetes, Docker, CI/CD, Prometheus, Grafana, Shell Scripting, gRPC
- **Industry Skills:** Software Development Life Cycle, Web Development, Database Management, Agile Methodologies, Microservices Architecture, Object Oriented Programming, Data Structures, Algorithms, NoSQL databases, PostgreSQL

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER

Gurugram, India

APPMANCH PTY LTD

11/2024-Present

- Developed a **customer-facing, GenAI-powered mobile platform** from the ground up, with a **mobile-first approach** using **Flutter** for seamless cross-platform deployment.
- Built and maintained **7+ microservices in Golang**, designed for scalability and performance, leveraging **PostgreSQL** as the primary relational database.
- Designed and implemented an **event-driven architecture** using **message queues** to decouple services and improve system responsiveness and fault tolerance.
- Integrated **Stripe payment gateway** with the Flutter mobile app, enabling secure and efficient in-app transactions and subscription management.
- Ensured **clean code practices**, test coverage, and CI/CD pipelines to maintain high code quality and fast deployment cycles.

FULL STACK SOFTWARE ENGINEER

Gurugram, India

MiRus, LLC

03/2022-10/2024

- **Orchestrated a fully automated AWS Infrastructure-as-Code (IaC) setup** using Terraform for the **GALILEO™ Surgical Planning platform**, ensuring scalability, repeatability, and zero manual intervention.
- **Developed and integrated dynamic frontend components with Vue.js and TypeScript**, significantly enhancing the application's user interface and delivering a responsive, intuitive user experience.
- **Architected and implemented backend services using Node.js, TypeScript, and PostgreSQL**, establishing a robust and maintainable application layer for GALILEO™ Surgical Planning.
- **Built high-performance backend services for GALILEO™ RPM** using **Java 17, Spring Boot, and PostgreSQL**, achieving a **50% performance improvement** through optimized service design and database interactions.

SENIOR ASSOCIATE

Gurugram, India

Macquarie Global Services Pvt Ltd

11/2019-02/2022

- **Engineered a serverless solution using AWS Lambda and Golang**, boosting operational efficiency by **60%** and reducing infrastructure costs by **40%** through scalable, event-driven design.
- **Built a self-service CI/CD portal**, enabling **95% automation** for internal teams, reducing deployment complexity by **90%**, and improving system performance by **85%**.
- **Led on-prem to AWS Cloud migration**, significantly improving scalability and data security while reducing system downtime by **98%** and increasing operational efficiency by **50%**.
- **Deployed Kubernetes architecture on Amazon EKS**, leveraging **Gloo Microgateway** for secure, efficient traffic management and service mesh integration.
- **Implemented GitOps with ArgoCD for Kubernetes**, streamlining CI/CD pipelines and ensuring consistent, automated application delivery across environments.

SOFTWARE ENGINEER

Gurugram, India

Newgen Software Technologies

07/2018-10/2019

- **Spearheaded complex third-party integrations**, enhancing overall project functionality and stability as a key member of the core development team.
- **Developed new features for an internal automation tool**, reducing manual boilerplate code generation by **90%**, streamlining developer workflows.
- **Implemented end-to-end automation for custom Excel sheet generation**, achieving **100% automation** and significantly reducing manual intervention.

EDUCATION

YMCA UNIVERSITY OF SCIENCE AND TECHNOLOGY

Bachelor of Technology, Major in Information Technology with 3.52 GPA

Faridabad, India

2014-2018
